

Great height and low weight make the DK25 range perfect for indoor or outdoor use

Perfect function, optimum safety, unfailing quality and versatility are the reasons for the success of the DK25 range on all markets.

The maximum working height is 82 feet. Automatic restriction of the load moment ensures optimum reach to suit the load in the basket.

All DENKA lifts meet the most stringent safety standards. The electrical and hydraulic system features double safety devices, the cylinders have hose break valves, and all the movements of the lift have a pressure control valve safety system.

The telescopic boom is made of specially extruded aluminum sections, ensuring good stability and low weight.

The combination of these sections and the continuously adjustable control system provides the operator in the basket with a safe and highly functional workplace.

The DK25 comprises versatile lifts which can be supplied for battery operation. Therefore no connection to the main supply is required.

Typical application areas are work on facades, roofs and dormer windows, window cleaning, painting, pruning, etc.

Owing to its low weight and compact design, the DK25 range is excellent for indoor maintenance of shopping centers, churches, airports, atriums, etc.

1. Hydraulic support legs ensure speed of erection and safety even on sloping surfaces.

2. Straightforward design, easy to service.

3. Straightforward operation of all functions from the control panel in the basket.

4. Hydraulic drive wheels for ease of movement.

Model DK25

Technical data

Max. working height

Outrigger cross section

Standard model	DK25
Max. working height A	82'
Working height B	75'-5"
Working height C	70'-2"
Max. reach D	37'-3"
Reach E	29'-6"
Max. load in basket	440 lbs
Slew movement	cont. 360
Transport dimensions	
Length L1	29'-9"
Height H	7'
Width B	5'-7"
Net weight standard	5401 lbs

STANDARD EQUIPMENT:

- Rotating aluminum basket
- Battery operation
- Proportional control
- Hydraulic outriggers
- Hydraulic wheel drive
- Hour counter
- Charging key

EXTRA ACCESSORIES:

- Rotating fiberglass basket 3'-11"*
 - Outlets for Water/air in the basket*
 - Petrol generator*
 - Yellow rotating light
 - Height limiting system 2 steps
 - Special colours
 - Yellow flashing light on outriggers
 - Biological degradable hydraulic oil
 - Adjustable Basket from ground level
- * increase in weight
